

How To Use Call Park

To park a call please perform the following steps:

1.) Press the **transfer button** and **Dial *70 + a slot number such as 1, 2, 3 etc** (i.e *701, *702, etc.). You will receive a message how to retrieve the parked call followed by a busy signal when the call is parked.

Alternatively a call can be parked on an extension by dialing ***70 + extension number** (i.e *70222, *70333).

2.) Go to the phone where the parked call is to be retrieved.

3.) Dial ***71 + the park slot number where the call is parked** (i.e *711, *712, etc.)

Alternatively if the call is parked on an extension, ***71 + the extension number** can be dialed to retrieve the call (i.e. *71222, *71333).

If you have questions or issues please call Positioners Technical Support at **519-640-8840** for assistance.
